

The College of Wooster

Plan to Plan Timeline & Key Activities 2009-10

Notes/commentary:

Most complete.
Need enrollment, budget assessment, facilities, educational assessment. Questions to answer: Is SPOT correct? If not, update to "reality"

Need to determine:
Process(es) of discussion & consultation
Process of integration
How to balance "governance" with open participation

Complete the statement:
"Achieving the vision means we will..." (describe outcomes in measurable, assessible terms)

What principles will guide our choices of strategic initiatives and related activities (in addition to our mission & core values)?

What are the **broadly defined** strategic (multi-year) strategic initiatives we will undertake in order to achieve our vision? (these will clearly reflect our core values & mission)

Toughest work is here!

Does the winter BOT meeting include a Board-campus planning workshop to jointly discuss strategic initiatives, resource requirements, and come to common understanding & commitment?

- Includes:**
- Strategic statements
 - Target outcomes by 20XX
 - Strategic initiatives
 - Initial specific actions
 - Initial multi-year strategic financial plan
 - The means by which we will assess our progress
 - Contingency (oops) plan
